MOVING **TOWARDS**
BETTER

COURTS

The conversation began with a need for more courtroom space and to increase safety by having all courtrooms in one location.

CUSTOMERS

Kingsport wants to provide the best possible customer service to all residents by offering easy access to all city departments.

COLLABORATION

Working with community partners to improve service to citizens is a priority for the city.

CONSOLIDATION

By moving all major services to one building, we improve the customer experience and have an added economic benefit of putting city buildings back on the tax roll for private use.
