The property is located inside the corporate limits of the City of Kingsport, 10th Civil District of Sullivan County. INTENT

The owner has requested that the City of Kingsport abandon the old 12-ft wide waterline utility easement that was deeded to them back in 1999. The majority of the easement was abandoned years ago when the roadway was relocated. The City did relocate a fire hydrant in the last few months to locate it within the right-of-way in order for this waterline easement to be abandoned.

City Departments, as well as local utility providers, have taken a look at the request to abandon the utility easement. It has come to a conclusion that the waterline easement is no longer needed and City staff no longer see any future use for this easement.

(Approve, Deny, or Defer)								
The Kingsport Planning Division recommends Phase 3 Amendment Approval	or the following reasons:							
• The proposed amendment conforms to the revised (current) standard	for minimum yards in a PD zone.							
• The applicant for the request is the Chase Meadows HOA.								
Staff Field Notes and General Comments: The applicant for the amended Chase Meadows Phase 3 Final Plan is seeking to conform to the recently amended PD zone requirement for yards. More specifically, the current standard of a 25' yard that surrounds the perimeter of the Chase Meadows PD zone. The former PD zone standard was a 30' development free periphery yard. The request is a result of a home to be located at 1523 Covent Garden Ct. proposed to be constructed with an unenclosed porch to the rear of the structure that would not be allowed with the current phase 3 approval that still has the 30' development free periphery yard requirement. This approval would pertain to all of phase 3 in Chase Meadows. Both the Chase Meadows HOA, in concert with the original developer, Ken Bates, are further considering the 25' yard change for the remaining phases of Chase Meadows (phases 1, 2, and 4) and may bring such a request forward in the future. Staff recommends approving the request as it conforms to the current PD zone standard and is supported by the Chase Meadows HOA.Planner:Ken WeemsDate: 3/23/2021

Planning Department Recommendation											

(Approve, Deny, or Defer)

The Kingsport Planning Division recommends final plat approval for the following reasons:

• Plat meets the minimum subdivision regulations

A request for final division of lot 1 & 2 for property located inside the City's Urban Growth Boundary has been received. The property is located off of Thomas Acres Road.

The submitted plat divides the 3.33+/- acre tract. Lot 1 will be 2.314 acres. Lot 2 will be 1.020 acres. These parcels are zoned A-1 in Sullivan County. The owner is requesting a road frontage variance to section 3.1 of the Subdivision Regulations. This section states that the physical surroundings or condition of the property involved, a particular hardship to the owner would result, as distinguished from a mere inconvenience. In this division they are locating the dividing line to where it includes the lot 2 driveway and avoids the neighboring lot 1 shed. The road frontage is currently 35.04 feet. The owner of lot 1 has a shed abutted against the new lot line and will not move it. Therefore the road frontage is short 14.96 feet.

<u>Staff recommends final plat approval of the division of Thomas Acres property along with the requested variance.</u>

Date: 3-15-2020

Dear Kingsport Planning Commission,

We are asking for a variance, to your regulations, to reduce the required 50-foot road way frontage to 35-feet. Due to the existing structure along the common line with Lot 1 and Lot 2. The required 50-foot would create a non-conforming issue and the current owner would like to leave their shed in place.

Thank you,
